The Orient Coming.

The daily papers the past week have been indulging in articles about the Southwest Kansas & Colorado Ry., which is at present trying to secure bonds in Clark and Meade counties. It is now said that the project is being put through in the interest of the Kansas City, Mexico & Orient, which has some of the right-of-way already negotiated. The road, as pictured in a map in the Star last week, shows the road crossing the Rock Island at Arkalon. However, those who are familiar with the topography of the country around Arkalon do not think this probable, even if the Orient would care to cut Liberal off the route. This may be merely a bluff, to hold Liberal up for a bonus, but that is really unnecessary, as the town will be right there with the goods when the railroad people can show sufficient provocation.

Start a Home Now and Join the Ranks of the Independents

Never has it been easier to build than right now—money is plentiful and is seeking legitimate channels. And there is no enterprise more worthy than home-building. It opens the purse strings of the banker quicker than anything else, because it means that you have decided to become a part of the community in which you live. Thus almost before you start you find the ownership of a home carries a significance. Start it today—you'll be glad if you do and sorry if you don't. When you're ready to talk lumber we'll be waiting for you, because we have just the lumber you will need, besides a lot of suggestions that may be helpful to you—without any extra charge.

IN THE STUDIO

Painter—How on earth do you suppose that I can make a portrait of you from two photographs, one taken in 1863 and one in 1911?

HIS EXCUSE.

Cholly had entered his father's office after graduating from college, but had shown a capacity for unpunctuality that gradually got upon the old gentleman's nerves.

"Well," said the latter one morning, snapping the cover of his watch angrily as Cholly walked in about half-past ten, "this is a fine time of day to get down to business. Here it is half-past ten o'clock."

"Well, my dear dad," said Cholly, languidly, "you have always said that the office should seek the man, and not the man the office, and I've been waiting for the blamed thing to turn up ever since breakfast."—Harper's Weekly.

HAS WALKED MANY MILES.

Boone Bennett, the veteran Kansas City track walker, has a record of which few men if any can boast. He lives near Dudley, this county, and has been walking track for the Louisville & Nashville Railroad company on the Kansas City division for 19 years.

For 16 years he made the round trip every night of 21 miles of track, and for the last three years he has been going over a round trip of 12 miles. During those 19 years he has walked over 132,780 miles of track at night, besides the walking he has done in daytime.—Mount Vernon Signal.

MORE OF REED'S SATIRE.

One day in a parliamentary discussion some one cited a ruling and attributed it to Mr. Carlisle, for whose great abilities both as a lawyer and as a parliamentarian, Mr. Reed, like all the rest of us, had the highest respect. Mr. Reed at once rose. "That ruling," he said, "was not made by the speaker. When the speaker permits such a ruling as that to be made he yields the chair to the gentleman from Illinois. He has too much respect for the rules of this house and for parliamentary law to make such a ruling himself."—Senator Lodge, in Century.

IN NEED OF DOCTORING.

Editor (extending manuscript)—You ought to take this story to some doctor of literature.

Author (puzzled)—Why?

Editor—The plot is weak, the construction very bad, the style nervous and the sentiment decidedly sickly!
